

A performing arts program in the Swiss Alps above Lake Geneva

We want you!

Join us this summer!

The **Caux Artists Program (CAP)** is an interdisciplinary course focusing on VOCAL ARTS (classical, music theatre and jazz!) and the Humanities. We are now accepting applications to invite **12 - 16 young performing artists** from around the world to join us!

The programme takes place at the Caux Conference and Seminar Centre, owned by Initiatives of Change Switzerland in Caux, Switzerland during the annual **Caux Forum**. It is an amazing two weeks with artists from all over the world. In keeping with the international and multi-cultural "spirit of Caux", CAP has had artists, faculty and mentors from Armenia, Cameroon, Colombia, Egypt, Germany, India, Nigeria, South Africa, Sri Lanka, Switzerland, Ukraine, United Kingdom and the United States.

'The project you describe (CAP) has my full and enthusiastic support. Without music and art the deeper, wider change we seek will never arrive.'

Rajmohan Gandhi, Past President of Initiatives of Change International

'Time shared with people coming from many places helped me look at life differently, which enhanced my "creative ability". Caux is like a hermitage which provides a unique environment for artistic activity and a fearfree atmosphere to express it.'

V Soumyasri , Caux Artist- India
