Solidarity for  
the Future

Many of us want to make a difference to the world, yet feel isolated and powerless. But as the Turkish proverb goes: 'What can one hand do? Two hands can make a sound!'

This year we are excited to introduce "Solidarity for the Future", a youth-led initiative to support each other throughout the coming decades in becoming the change we want to see in the world and challenging the status quo.

During this transformative seven-day, youth-led experience, as part of the lofC Global Fellowship Gathering sessions and our own activities, we will think globally how to better act locally and design strategies for personal and global change.
